	Examiner Jeff Lundgren	Art Unit 1639	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Withdrawn Claim Rejections

The rejection of claims 18 and 19 under 35 U.S.C. § 112, second paragraph, is withdrawn in view of Applicants' amendments to the claims.

The rejection of the claims on the ground of nonstatutory double patenting in the previous Office Action have been withdrawn in view of Applicants' filing of a Terminal disclaimer over U.S. Patent Nos. 6,979,538 and 5,226,409.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on April 5, 2006, has been considered by the Examiner. The submission is in compliance with the provisions of 37 CFR § 1.97. Enclosed with this Office Action is a return-copy of the Form PTO-1449 with the Examiner's initials and signature indicating those references that have been considered.

New Grounds of Rejection

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-17 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, and all dependent claims, are indefinite because it is not clear if the "potential binding domain that binds the target material" in step (d), is the same as the "SBD" in step (e). Correction is required.

Claims 2-6 are indefinite for reciting "said binding domain" because it is not clear which binding domains Applicants are claiming (*i.e.*, the "potential" or "successful" binding domain as in claim 1).

Art Unit: 1639

Claims 2, 3, 5, 6 and 8-14 are indefinite for reciting the phrase “naturally occurring” as it relates to the compositions of the claims because it is not clear how one of ordinary skill in the art would distinguish “naturally occurring” compositions from “non-naturally occurring” compositions.

Claim 4 is indefinite for reciting the phrase “said binding protein” because it is not clear which “binding protein” Applicants are claiming (*i.e.*, the “potential binding protein” or “a binding protein comprising a successful binding domain” as in claim 1).

Claim 8 is indefinite for reciting “said binding antibody” because there is no antecedent basis for this limitation in claim 1.

Claims 5-7 and 9 are indefinite for reciting the phrase “consists essentially of” to describe the claimed region of a peptide/protein. The metes and bounds of this claimed protein are not clear because neither the context of the claim or the specification teach the “essential” nature of the protein function and the requisite corresponding protein sequence.

Conclusions

No claim is allowable.

If Applicants should amend the claims, a complete and responsive reply will clearly identify where support can be found in the disclosure for each amendment. Applicants should point to the page and line numbers of the application corresponding to each amendment, and provide any statements that might help to identify support for the claimed invention (*e.g.*, if the amendment is not supported *in ipso verbis*, clarification on the record may be helpful). Should Applicants present new claims, Applicants should clearly identify where support can be found in the disclosure.
